FAQ | Orthopedic Surgeons

FAQ for Orthopedic Surgeons

What is BLISCare?

- BLISCare is a financial risk protection solution designed specifically for surgeons, surgical facilities, and practices offering bundled payment or fixed-price procedures. It covers the cost of unexpected post-operative events—such as readmissions, complications, and revisions—within a flexible coverage period ranging from 90 days to 1 year, providing extended protection well beyond the standard 30-day episode of care typically associated with bundled payment models.

How does BLISCare benefit orthopedic surgeons?

- BLISCare allows orthopedic surgeons to participate in and expand bundled payment offerings with confidence. By protecting against the financial impact of post-op complications, it helps maintain profitability, ensures pricing stability, and makes bundled contracts more attractive to aggregators, employers, and cash-pay patients.

What types of orthopedic procedures are covered?

- BLISCare provides coverage for a wide range of high-risk, high-volume orthopedic procedures, including but not limited to:
 - Total knee & hip replacements (TKA/THA)
 - Spine surgeries & spinal fusions
 - ACL reconstructions
 - Shoulder replacements & rotator cuff repairs
 - Foot, ankle, and hand surgeries
 - Arthroscopic surgeries
 - Pediatric orthopedic procedures
 - Sports medicine and trauma cases
 - Revision joint surgeries
 - Carpal tunnel and trigger finger releases

What types of orthopedic complications are covered?

- BLISCare covers the financial cost of complications like:
 - Surgical site infections
 - Hospital readmissions ranging from 90 days to 1 year
 - Revisions and re-operations
 - Extended rehab or unexpected follow-up procedures
 - Post-op complications that result in additional clinical care

FAQ for Orthopedic Surgeons

How does BLISCare integrate into my current bundled payment model?

- Seamlessly. BLISCare fits directly into your existing workflow without disrupting your billing or care delivery. We partner with your administrative team to track qualifying patients, manage claims, and ensure post-operative events are reported and covered within the defined claim period.

What bundled payment platforms or partners is BLISCare compatible with?

- BLISCare supports orthopedic practices engaged with bundled payment models—whether through companies like Carrum Health, Transcarent, and others, or through direct-to-employer contracts, cash-pay surgery centers, and ASCs

Do I need to be in a formal bundled payment program to use BLISCare?

- No. Whether you're just starting to offer cash-pay orthopedic packages, developing employer partnerships, or already participating in value-based contracts, BLISCare can help you launch and grow with a financial safety net in place.

How do I get started with BLISCare?

- It's easy. Schedule a free 15-minute Ortho Bundle Risk Review to assess your current exposure and determine the right protection plan for your procedures. You can also fill out our application to receive a custom quote based on your practice's case volume and bundle structure.

Is BLISCare HIPAA-compliant?

- Yes. BLISCare operates with full HIPAA compliance and data security standards to ensure your patients' information and your practice's records remain protected at all times.
