

ORTHOPEDIC BUNDLES CHECKLIST

Is Your Ortho Practice Prepared for Financial Success in Bundled Care?

In value-based and fixed-price surgical models, one complication can cost your practice thousands. But it doesn't have to.

Bundle Strategy & Infrastructure

- ☐ Do you currently offer or plan to offer fixed-price surgical packages?
- ☐ Have you identified your most bundle-eligible procedures (e.g., TKA, THA, ACL, spinal fusions)?
- ☐ Are you working with any bundler (e.g., Carrum Health, Transcarent, Lantern Health)?
- ☐ Do you offer cash-pay or direct-to-employer ortho packages?
- ☐ Have you set internal bundle pricing that reflects your full episode of care costs?

Post-Op Care & Complication Management

- ☐ Do you track post-op outcomes for 30+ days after orthopedic surgeries?
- ☐ Do you have care coordination in place to manage follow-up and prevent readmissions?
- ☐ Have you calculated your risk exposure for:
 - Surgical site infections?
 - Readmissions within 30 days?
 - Revisions due to hardware or healing complications?
- ☐ Have you experienced margin loss due to any unexpected post-op events?

Financial Risk Protection

- ☐ Do you have a plan in place to absorb the financial impact of complications in fixed-price bundles?
- ☐ Are you using a surgical financial protection solution like BLISCare to offset 30-day bundled payment risk?
- ☐ Can your team confidently expand orthopedic bundles without fear of unpredictable costs?

Growth & Scaling

- ☐ Are you prepared to scale orthopedic bundled programs across:
 - New procedures (e.g., shoulder, lumbar fusion)?
 - Additional payer/employer groups?
- ☐ Have you evaluated long-term profitability across your bundled payment contracts?
- ☐ Do you have financial partners who understand the orthopedic-specific risks of value-based care?

READY TO CONFIDENTLY GROW YOUR BUNDLED PROGRAMS?

If you checked 8 or more boxes, your orthopedic practice is on the right track toward bundled payment success — but even well-prepared teams shouldn't leave financial risk to chance. If you checked fewer than 8, now is the time to take action. BLISCare can help fill the gaps in your risk strategy, reduce financial exposure from post-operative complications, and give you the confidence to expand your orthopedic bundled payment offerings with greater security and profitability.
